
UT Library Services Overview

As an ATI member company you have free access to our UT library services. All you need is a letter from ATI requesting access to the UT library.

The value of library access to ATI companies is huge. The UT library system includes access to “brick and mortar” library facilities with extensive collections, online research databases and e-books. By utilizing the UT library resources your company receives the benefit of 660 journal/article/research report databases. A subscription to just one of these databases is roughly \$35,000 for nonprofits and around \$100K for private sector companies.

If you have need for a “library letter”, please send me an email with the name, or list of names, of the person(s) from your company who need library access. Keep in mind that these people must be part of your company and on record with ATI. These person(s) must also have a current UT EID for access in the form of a UT ID badge. Upon processing, letter requests will be put in your ATI mail box.

Best Regards,
